75% UFLEXX™ & SOP + Fe

Professional turf fertilizer for tees and fairways.
Mini fairway grade (SGN 145)

Product Features

- 75% of the nitrogen is from UFLEXX™ stabilized nitrogen. UFLEXX™ contains two inhibitors that reduce nitrogen loss to ammonia volatilization and nitrate leaching.
- High rate of potassium. All the potassium is in the safer sulfate form.
- Contains iron sucrate.

Turf Benefits

- UFLEXX™ improves nitrogen efficiency, reduces nitrogen loss due to volatilization, leaching and denitrification. The result is an excellent nitrogen source with improved nitrogen efficiency which gives you an intense green colour for up to 6 to 8 weeks.
- Provides a high rate of potassium for improved drought tolerance, greater disease resistance and improved wear tolerance.
- Supplies equal amounts of nitrogen and potassium for soils that require applications of potassium.
- Designed for use on tees and closely mowed fairways. Mini-sized particle provides excellent distribution at lower application rates.
- Iron provides deep green color without excessive top growth. Iron sucrate technology increases nutrient availability and uptake throughout the growing season while minimizing mower pick-up with the revolutionary dispersing granule technology.
