40% DefeNd™ + 35% Nutryon-S™

Professional turf fertilizer Regular Grade (SGN 245)

Product Features

- 40% of the nitrogen is from DefeNd™ stabilized nitrogen. DefeNd™ contains two inhibitors that reduce nitrogen loss to ammonia volatilization and nitrate leaching.
- 25% of the nitrogen is derived from Nutryon-S™ polymer-coated, sulphur-coated urea.
- Phosphorus free.

Turf Benefits

- According to research, at least 30 percent of the nitrogen from urea can be lost to the atmosphere through volatilization within days of application.
- Using DefeNd™ technology will increase the availability of applied nitrogen
- Nutryon-S™ uses unique technology that supplies consistent feeding for better turf quality over an extended period.
- This product does not contain phosphorus. It must be used on phosphorus balanced soils or on unbalanced soils in combination with fertilizer that contains phosphorus.
