

# Solu-Cal

## Enhanced calcitic lime

## Mini and regular particle size

### Product Features

- Solu-Cal enhanced granulated calcium carbonate is an efficient, fast acting and effective method of supplying available calcium to the plant. Also used to increase pH of acidic soils.
- Solu-Cal is produced from high-quality calcium carbonate, finely ground to insure optimum availability.
- Contains PHCA Physio Enhancer.
- Treated to ensure very low dust content.

### Turf Benefits

- Used to supply available calcium in spring and during summer months
- Reduces the toxicity of aluminium, iron, manganese, and copper in acid soils.
- Decreases potassium leaching losses.
- PHCA is a fertilizer additive derived from naturally occurring carboxylic acids. Makes other nutrients more available.
- PHCA helps to increase root mass and volume and enhances physiological processes within the plant.

### Guaranteed Minimum Analysis

	%
Total Calcium Carbonate Equivalence	95.0
Total Neutralizing Value	95.0
Calcium (Ca)	36.0
CaCO <sub>3</sub>	80.0

### Application Rates

Bag kg (lb)	Product application rate
20 (44.1)	The proper application rate depends on soil pH and soil test levels of calcium.
	Sports & Recreational turf, Residential lawns: 2 to 4.5 kg/100 m <sup>2</sup> (5-10 lb/1,000 ft <sup>2</sup> )
