100% Ammonium sulfate + HydroFuze® Mn

Professional turf fertilizer for greens and tees.
Micro greens grade (SGN 100)

Product Features

- 100% of the nitrogen is in a quick-release form from ammonium sulphate.
- High rate of potassium. All the potassium is in the safer sulfate form.
- Each granule is impregnated with HydroFuze® Mn to ensure uniform and homogeneous manganese distribution.

Turf Benefits

- Ammonium sulphate is particularly useful in the early spring for rapid recovery and green-up of greens, tees and fairways.
- Ammonium sulphate is an acidifying fertilizer that is useful on high pH soils.
- Acidifying treatments using ammonium sulphate as the nitrogen source may be effective in limiting the severity of Take-all Patch and summer patch disease development during periods of pathogen activity (spring and fall).
- The micro-prill provides optimum distribution of fertilizer granules per unit area resulting in a uniform nitrogen application and release.
- Provides a high rate of potassium for improved drought tolerance, greater disease resistance and improved wear tolerance.
- Supplies equal amount of nitrogen and potassium for soils that are medium in potassium content.

Product Characteristics

Product Code:	C110924
Product Type:	Greens Fertilizer
Particle Size:	SGN 100
Net Weight:	50 lb
Bulk Density:	66 lb/ft ³
Coverage:	14,000 ft ² @ 3.6 lb/1,000ft ² 8,750 ft ² @ 5.7 lb/1,000ft ²

Guaranteed Analysis

		%
Total Nitrogen	(N)	14.0
14.0% Ammoniacal Nitrogen		
Soluble Potash	(K ₂ O)	14.0
Sulfur	(S)	21.0
21.0% Combined Sulfur		
Manganese	(Mn)	0.2
Derived from: Ammonium sulfate, Potassium sulfate, Manganese carbonate

100% Ammonium sulfate + HydroFuze® Mn

Directions For Use

- Read the entire label before use.
- Apply only as directed during the growing season.
- Apply only to dry foliage.
- Irrigate after application, especially during periods of high temperatures (80°F or above). Irrigating after application will accelerate initial green-up and will aid in the downward movement of granules into the turf canopy.
- Nutrite encourages responsible use of our products. Help do your part in protecting our rivers and lakes by following label indications and cleaning driveways and walkways after application. Do not apply to frozen ground.

Application Rates

Application Rate		Area Covered (ft ²)	Bags per acre	Nutrients supplied (lb/1,000 ft ²)		
(lb/1,000 ft ²)	(lb/acre)			N	P ₂ O ₅	K ₂ O
3.6	174	14,000	3.1	0.50	-	0.50
5.7	279	8,750	5.0	0.80	-	0.80

Suggested Spreader Settings

To provide proper distribution, calibrate spreader before application.

Rotary Spreader	Ground Speed	Width of Coverage	3.6 lb/1,000ft ²	5.7 lb/1,000ft ²
Accupro 2000	3 mph	8 ft	G ½	I ½
Scotts R-8A	3 mph	8 ft	H	J
Lesco (Letter / Numeric)	3 mph	8 ft	D / 10	E / 12
Earthway Rotary	3 mph	8 ft	10	12
Cyclone / Spyker	3 mph	8 ft	3.75	4.25
Prizelawn BF-1 / CBR III	3 mph	8 ft	H	J

Note: All of calibration starting points given above are for wheel-to-wheel coverage (100% overlap). The spreader settings should only be used for calibration starting points as age, wear and speed of spreader will impact actual applied rate.

Notice

- Information regarding the contents & levels of metals in this product is on the internet at <http://www.aapfco.org/metals.htm>
- CAUTIONS: This fertilizer manganese and should be used only as recommended. It may prove harmful when misused.
- This product contains iron which may stain concrete and other surfaces. Product applied to these surfaces should be promptly removed by sweeping or blowing. DO NOT WASH OFF WITH WATER.

Precautions

- KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Do not inhale. Fertilizer may cause irritation of eyes, nose, throat and skin. In case of contact with eyes, flush with plenty of water; get medical attention.

Storage and Use

- Store in a clean, dry place.
- Reseal opened bag by folding top down and securing.
- Use only clean, dry spreaders.
- Do not leave unused product in spreaders.

Notice to Buyer

CONDITIONS OF SALE AND LIMITATIONS OF WARRANTY AND LIABILITY:

Buyer assumes all responsibility for safety and use not in accordance with directions. It is impossible to eliminate all risks inherently associated with the use of the product. Plant injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond seller's control. In no case shall the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product.
