Nutri-Booster with Potassium Nitrate

Professional turf fertilizer for tees and fairways.

Mini tees & fairway grade (SGN 145)

Product Features

- 40% of the nitrogen is in a quick-release form from potassium nitrate.
- High rate of potassium.
- Phosphorus free
- Contains iron sucrate.

Turf Benefits

- Potassium nitrate is particularly useful in the early spring for rapid recovery and green-up of greens, tees and fairways.
- Provides a high rate of potassium for improved drought tolerance, greater disease resistance and improved wear tolerance.
- Potassium uptake is more efficient when applied in combination with nitrogen.
- This product does not contain phosphorus. It must be used on phosphorus balanced soils or on unbalanced soils in combination with fertilizer that contains phosphorus.
- Iron provides deep green colour without excessive top growth. Iron sucrate technology increases nutrient availability and uptake throughout the growing season while minimizing mower pick-up with the revolutionary dispersing granule technology.
- Magnesium help promote good turf colour and vigour.

Nutri-Booster with Potassium Nitrate

Directions For Use

- Read the entire label before use.
- Apply only as directed during the growing season.
- Apply only to dry foliage.
- **Important: Irrigate after application.** Irrigating after application will accelerate initial green-up and will aid in the downward movement of granules into the turf canopy.
- Use only at recommended rates
- Nutrite encourages responsible use of our products. Help do your part in protecting our rivers and lakes by following label directives and cleaning driveways and walkways after application. Do not apply to frozen ground.
